

**TOPICAL ANTI-INFECTIVE FORMULATIONS**

**ABSTRACT**

Topical compositions containing an effective amount of lysostaphin and/or one or more  
lantibiotics in a pharmaceutically acceptable carrier for topical application. Methods for  
treating skin or wound infections, including, but not limited to infected abrasions, skin or  
surface cuts, burns or surgical incisions or decubiti, with the topical compositions are also  
disclosed.
